BIOMONITORS AND BIOMARKERS AS INDICATORS OF ENVIRONMENTAL CHANGE 2

Book Condition: New. Publisher/Verlag: Springer Netherlands | A Handbook | Monitoring the environment is absolutely essential if we are to identify hazards to human health, to assess environmental cleanup efforts, and to prevent further degradation of the ecosystem. Biomonitoring and biomarkers combined with chemical monitoring offer the only approach to making these assessments. Based on an International Association of Great Lakes Research conference, this book is intended for researchers who want to incorporate new and different technologies in their development...
