Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The Grid Computing Information Centre (GRID Infoware, 2004) aimed to promote the development and advancement of technologies that provide seamless and scalable access to wide-area distributed resources. Computational Grids enable the sharing, selection, and aggregation of a wide variety of geographically distributed computational resources (such as supercomputers, compute clusters, storage systems, data sources, instruments, and people) and presents them as a single, unified resource for solving large-scale computing and data intensive computing applications.
