Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. Large Print. 216 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Little Bear and Mama Bear live in the wilderness where they can see bright stars and the Milky Way. Little Bear asks about where they live and is in for a surprise! Wise Mama Bear answers Little Bear s questions, expanding from land to ocean to Earth to solar system to galaxy and beyond. Little Bear wonders about the surprising size and elegance of our universe. Sometimes, seeking answers to our questions leads us to more questions. Little Bear s Big Night Sky is a simply worded picture book for young children, written by a physicist. It is for children who like the stars, science or discovery. It makes a good bedtime story as the tone is quiet, the astronomical illustrations blue and dreamlike, and the characters drift off to sleep and wonder about their place in the universe. Age recommendation: preschool kindergarten. Like popular baby book, On the Day You Were Born, there is additional scientific information in the back for older children or to facilitate further discussion.
