Black Boxes: Event Data Recorders (Hardback)

By Thomas M Kowalick, Tom Kowalick

Micah Publications, United States, 2005. Hardback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Millions of motorists crash - few realize that vehicles record crash data! BLACK BOXES: Event Data Recorders updates important developments and activities in 2005, and continues to describe in simple everyday language, the newest accessory on-board passenger motor vehicles - the Motor Vehicle Event Data Recorder (MVEDR). This automotive equivalent of an airplane s flight recorder or black box is intended to solve the mysteries of car crashes and improve the safety of our roads. As follow-up to the authors earlier books on the topic, once again the reader is taken inside the automotive industry and the government highway safety establishment to foster an understanding of the politics and the positions on all sides of this safety debate. This book details the end-process of the regulatory initiatives. The author takes an unbiased approach, topically presenting each argument and uncovering the agendas and mandates of each of the stakeholders. Kowalick, an expert on automotive EDR technologies, discloses where to find data recorders in your vehicle. It is useful to attorneys, public safety advocates, public policy administrators, engineers, automotive...

Reviews

Very beneficial to all of class of people. I am quite late in start reading this one, but better then never. You may like just how the writer create this publication.
-- Audra Klocko PhD

Thorough information! Its this type of great go through. It is amongst the most incredible publication i actually have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.
