paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 412 Publisher: China Water Conservancy and Hydropower Pub. Date :2010-10-01 version 1. Book for the Chinese Hydraulic Engineering Society Committee of the foundation and foundation engineering branch of organized chemical grouting. water-based Bureau of China Co. Ltd. hosted Tenth chemical grouting three national academic exchange. the proceedings. Grout covers research. equipment development. the question of. foundation reinforcement. impervious sealing. crack dealing and other engineering applications. featuring 69 papers. reflecting the country since 2008 mainly in the field of chemical grouting Chemical grouting results and current the latest level. This book is rich in content. informative. and practical. For water utilities. civil construction. transportation. underground mining and other related professional engineering and technical personnel and students and teachers use and reference. Contents: Preface Research Cw520 grout crosslinking acrylate grouting material synthesis and properties of GS22-based grout water resistant high thixotropic paste slurry research and application of non-ionic water-based epoxy grouting material Preparation of FN-type non-cement-based super-laboratory testing of micro-grouting material furfural new low viscosity without the development of new chemical grouting

### Reviews

*This is the greatest pdf i actually have go through right up until now. It is actually packed with knowledge and wisdom I found out this book from my dad and i advised this publication to find out.*

-- **Arely Rath**

*I actually started reading this pdf. It can be rally exciting throgh reading period of time. Your lifestyle span is going to be enhance as soon as you total reading this ebook.*
