Thankyou for taking the time to look at my book. Are you tired of hearing about the awful effects of chemical-based fertilizer on your local environment? If so, would you like to find another way? Well, your search is over! The best way to avoid the hassles of chemical fertilizers is to make your own organic fertilizer at home - all you need is a worm bin. Worm composting (or vermicomposting/vermiculture) is the practice of using worms to break down kitchen scraps, and to turn those scraps into nutrient-rich garden compost. It is an ecologically sound way to eat healthier foods, throw away less waste and spend less money. I have written this step by step guide on worm composting for all of those who are tired of gardening with harmful chemicals. In its pages, you will find out how many worms you need...
